

ISTIYAK AMIN SANTO

Address: West Khulshi 03 Road, Pahartali, Khulshi, Chattogram, Bangladesh, **Phone:** +8801862864710, **Email:** istiyakaminsanto@gmail.com, **LinkedIn:** [@istiyak-amin](#), **GitHub:** [@istiyakamin](#)

CAREER OBJECTIVE

Aspiring AI researcher seeking admission to a Master's by Research program in Artificial Intelligence, with a strong commitment to pushing the boundaries of AI knowledge, developing cutting-edge solutions, and contributing to the evolution of technology. My aim is to engage in in-depth research, collaborate with experts, and harness the power of AI to address real-world challenges, with a focus on areas such as machine learning, computer vision, and natural language processing. Through this program, I aim to make significant contributions to the field while fostering my passion for innovation and exploration in the world of AI.

ACADEMIC QUALIFICATIONS

Port City International University

B.Sc in Computer Science & Engineering
CGPA: (3.64) out of 4

JAN 2020 - DEC 2023

7-14, Nikunja Housing Society,
South Khulshi, Chattogram

Chittagong Polytechnic Institute

Diploma In Engineering
Electronics Technology
CGPA: (3.01) out of 4

SEPT 2015 - OCT 2019

Chattogram, Nasirabad,
Chattogram, 4320, Bangladesh

Noakhali Union High School

Department: Science
CGPA: (4.89) out of 5

JUNE 2015

Noakhali, Chattogram, Bangladesh

LEARNING AND COURSES

Ultimate Way to Write Research Paper (Latex)

UDEMY, 2023

Web Application Development (3 months)

Basis Institute Of Technology Management (BITM)
Under: Skills for Employment Investment Program (SEIP)
Batch: PHP-31

Backend Engineering with Python

Techognize Training Institute
Batch: 2201

DevOps Engineering

Techognize Training Institute
Batch: 2221

RESEARCH WORK

Gullivertrips.com

JAN 2023

West Khulshi 03 Road, Pahartali, Khulshi,
Chattogram, Bangladesh

- Design and develop AI models to meet project requirements
- Connect OpenAI/ML models into APIs that other developers can use
- Perform statistical analysis on big data sets
- Manage project infrastructure and the development of AI models and projects
- Work with other machine learning engineers, data engineers, and AI engineers to develop machine learning models

Student Productivity Tracking

NOV 2023

Application

7-14, Nikunja Housing Society, South
Khulshi, Chattogram

Port City International University (Thesis
Project)

This thesis project focuses on the development of a Student Productivity Tracking Application designed to help students enhance their study habits and achieve their academic goals. The application offers various features to assist students in managing their assignments, tasks, and study notes effectively. With this application, students can set study goals and track their progress, ensuring they stay on track and accomplish their targets efficiently. The assignment management feature enables students to organize their assignments, create documents, and collaborate with their peers, promoting effective teamwork and timely submission.

PROFESSIONAL BACKGROUND

Full Stack Developer

MAR 2021

Royal Recruiter (Remote)

H Block Halishahar, Chittagong

- Designing and developing scalable and efficient APIs using the Go programming language.
- Collaborating with cross-functional teams to gather requirements and understand business needs.
- Implementing and maintaining RESTful APIs, ensuring high performance and reliability.
- Optimizing API performance, identifying and resolving bottlenecks or scalability issues.
- Integrating APIs with various systems and databases, ensuring seamless data flow.

Blockchain Developer

DEC 2021 – JULY 2022

KING APPS STUDIO (Project)

Cyberjaya, Malaysia

- **Smart Contract Creation:** Design, develop, and deploy smart contracts that define the NFT standards and govern the creation and transfer of NFTs.
- **Security and Auditing:** Prioritize security measures to protect against vulnerabilities and hacking, and consider conducting regular code audits.
- **Scalability:** Address scalability concerns, especially in high-traffic NFT markets, and optimize gas usage on the blockchain.
- **Metadata Management:** Explain how metadata, including descriptions, images, and other attributes, is handled, stored, and associated with NFTs.
- **Testing and Quality Assurance:** Explain the testing processes and security measures in place to ensure the reliability and security of the NFT platform.

Web Developer

Chief ERP System

SEPT 2017 - DEC 2020

West Khulshi, Wireless, Chittagong

- Primary responsibilities include design and development of client and server code.
- Experience working with PostgreSQL Database and of its tools like PgAdmin.
- Built CSS and JavaScript system for controlling text display issues cross-platform and cross browser
- Used jQuery to make the HTML, CSS interact with JavaScript functions to add dynamism to the web page
- Used AJAX, JSON for data transfer between front end and back end.

KEY SKILLS

Front End

- HTML5, CSS
- Bootstrap, Tailwind CSS
- Strong Knowledge in Core JavaScript
- Sass, jQuery UI, Web3 js, React

Databases

- MySQL
- PostgreSQL
- MongoDB

Problem Solving (Competitive Programming)

- Leetcode
<https://leetcode.com/istiyakamin/>
- Uri Online Judge
<https://www.beecrowd.com.br/judge/en/profile/481271>

Back End

- Golang, PHP
- Laravel Framework
- WordPress, Shopify
- Lumen, Yii, Symphony

DevOps

- Github
- CI/CD Development
- Cloud Computing -> AWS
- Load Balancing
- Server Security (DDOS, Port protection)
- Containerization: Docker
- Scripting and Automation: Bash, Python Script

EXTRA-CURRICULAM ACTIVITES

- **Research Lab Chattogram (RLC)**, Joint Secretary, 2020
- **PCIU Computer Club**, Executive Member
- **Youth Voice**, IT Team Coordinator
- **CTG BLOOD BANK**, Database Manager
- **CPI English Club**, General Member
- **PCIU Noakhali Association**, Executive Member
- **Seasonal Traveller**, Founding Member

ADDITIONAL INFORMATION

- Language: Bangla(Native), English(Fluent)
- Hobby: Music, Travelling, Reading Book
